Subject: Regarding Bad River Band Permit

Hi John,

Seems there is an effort of some sort to express concern about the Bad River Band's waste water situation. A few people sent me some e-mails of letters or e-mails they sent you regarding the permit. Do those count as actual comments since they were delivered via e-mail and not mail as the actual draft permit seems to require?

Also, do you know roughly how many comments you've received about that draft permit?

What does the EPA plan on doing with these comments? Will there be a public hearing about the permit at all?

Thanks!
-Brian
